DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 3/30/2006 have been fully considered but they are not persuasive.

Claim Rejections - 35 USC § 101

2. Claims 1-8 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claims are directed towards mathematical manipulations that have no tangible or concrete result. If the "acts" of a claimed process manipulate only numbers, abstract concepts or ideas, or signals representing any of the foregoing, the acts are not being applied to appropriate subject matter (Schrader, 22 F.3d at 294-95, 30 USPQ2d at 1458-59). The claims give no practical application for the recited steps. A claim that can be read so broadly as to include statutory and non-statutory subject matter must be amended to limit the claim to a practical application. A process consisting solely of mathematical operations, i.e., converting one set of numbers into another set of numbers, does not manipulate appropriate subject matter and thus cannot constitute a statutory process. The instant claims merely mathematically index the frames in a signal, without performing any tangible physical result or change in the signal, and as such are not statutory subject matter. See MPEP section 2106.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
